Characteristic features

Patented terrace installation system that increases the durability of decking boards

Features of the accessory:

1. Dedicated extended-length bit

Application

Designed for raised deck terraces with wooden boards, where an elevated level of durability and resistance to rot is required.

Invisible board mounting from underneath - boards are not damaged by screws from the top.

For screwing in DEC-T5X30 screws.

Advantages

Advantages of the accessory:

1. Specially extended bit for work convenience

Installation recommendations

This bit is extended so that DECK-DRY connectors can be freely mounted in the gap between the boards.

Tools

Bit T25

Recommendations for use

Insert the bit into the drill chuck and lock it.
